Task 1. Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 1.5 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 1.5 minutes to read it.

A long time ago men learnt how to make structures with walls and roofs to protect themselves from bad weather and wild animals. These ancient structures were quite primitive and very different from modern buildings. Still, they gave people shelter and comfort which they needed. Now there are many types of buildings in the world. They vary in size, shape and function.

There are several factors which influence the construction of a building. Firstly, builders need to consider which building materials are available or suit better. Secondly, they must know what a building is going to be used for. Moreover, they should think about land prices and climate in the area where they are going to construct a building. It is not a very good idea to build a house with big windows in the north or construct a lot of detached houses in the city centre where land is very expensive.

Task 4. Imagine that you are doing a project “Preparing for exams” together with your friend. You have found some illustrations and want to share the news. Leave a voice message to your friend. In 2.5 minutes be ready to:

- give a brief description of the photos, justifying the choice of the photos for the project;
- say in what way the pictures are different, justifying the choice of the photos for the project;
- mention the advantages and disadvantages (1–2) of the two types of preparing for exams;
- express your opinion on the subject of the project – whether you prefer preparing for exams alone or in somebody’s company and why.

You will speak for not more than 3 minutes (12–15 sentences). You have to talk continuously.
